Quality Through Experience

424 days ago I came to Loddon School and set myself up in a site cabin in your car park. It looked very different then from how it looks today. There was just grass where your MUGA is now, where the new hall is was your playground and your old hall was still being used for PE, assemblies and your school drama productions.

In that time, which is also 609,120 minutes, I have had the pleasure of managing this project to give you some new and fantastic facilities which I hope you, and our future generations, will enjoy using during yours and their time here at Loddon School. Additionally, it is lovely to see the school at the centre of the community and the new facilities being used by local clubs and organisations in the evenings and weekends.

And now finally, after 36,547,200 seconds, it is time to say good bye. It has been an absolute pleasure to have worked among you and with you to develop your school and enhance your learning environment. I hope you enjoy it and it is enjoyed for years to come.

Good luck with all of your festive productions, I know you will all work really hard to make them a fantastic and entertaining experience for all who come to see them.

And most of all . . . . . keep on learning!
